PALAZZO SERIES

Treviso[®]
3 panel camber top

Capri[®]
2 square panels

Bellagio[®]
2 arched panels

PALAZZO FEATURES

- District raised molding combined with unique, high-definition panel profiles
- Exceptionally smooth surface, ideal for painting and decorating
- Masonite's unique Engineered Component Construction – Core reinforcements are strategically positioned throughout the door in the stile, rail and panels to maximize performance, designed to have the weight*, feel and richness of stile & rail wood doors, along with the performance benefits of a composite wood product.
- These architectural designs available in both 1-3/8" and 1-3/4" stiles
- Also available with a 20-minute fire rating (1-3/4" only)
- United States Patent #6,588,162, other patents pending

Note: Core reinforcements are made from composite wood substrates.

* Weight comparison is based on matching or exceeding the weight of a domestic pine, stile & rail, 2 panel wood door.

transforming

interiors

Masonite's Palazzo Series feature distinct raised molding combined with unique, high-definition, European-style panel profiles like no other door. Three extraordinary architectural designs with the feel and richness of stile & rail wood doors include: the 2 panel arched Bellagio[®], the 2 panel square top Capri[®] and the 3 panel camber top Treviso[®]. All three Palazzo designs make a grand impression, adding elegance and sophistication to any room.

Presenting the
Palazzo Series

exceptional definition & elegance

MASONITE. THE BEAUTIFUL DOOR.

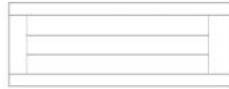

Our dedication to producing products that you can trust and rely on for performance and beauty started over 80 years ago when a researcher, engineer and inventor by the name of William H. Mason made a revolutionary discovery. He found that post-industrial wood chips could be recycled to create building products, making the environment an integral part of the foundation on which Masonite was built.

We remain relentlessly committed to delivering products, service and design innovations that enhance beauty and functionality. These innovations make your home more beautiful and create greater value for our customers throughout the world.

- Smooth surface, perfect for painting and decorating
- Optional Safe 'N' Sound / Emerald™ "green" specification offered for all styles
- Full range of passage door and bifold widths available
- 20-minute fire-rated doors available in select sizes (1-3/4")

Molded Panel Doors from Masonite are more durable, and resist warping, swelling, and cracking better than solid wood doors. These beautifully engineered doors suit any decor and are available in either smooth or textured finishes with matching handles. All doors come primed for easy finishing in a variety of widths and heights.

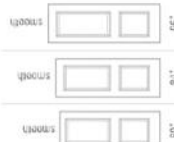

Best of all, no old growth timber is harvested solely for the production of Molded Panel Doors from Masonite. By-product wood chips and timber from sustainably managed forests are used by facilities with a commitment to environmental excellence in every step of the door manufacturing process. Our commitment to engineer the best products in an environmentally responsible way results in a product that is both beautiful and durable.

Masonite Molded Panel Doors are available in a variety of construction options:

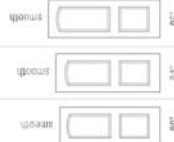

- Standard hollow core and Emerald® Hollow Core construction
- Safe 'N' Sound® and Emerald® Safe 'N' Sound® solid core construction
- 20-, 45- and 60-minute fire doors in select heights and door sizes (1-3/4" only)

Introducing Masonite's New FLUSH SAFE 'N SOUND' & EMERALD "green" doors

Flush
Hardboard

Enjoy the lift and feel of solid wood in an interior door engineered with recycled products

Bring the qualities of recycled, eco-friendly engineered flush doors into your home for better living.

Masonite's "green" doors meet strict requirements qualifying these doors as FSC-certified and contributing to "green" certifications including LEED and NAHB National Green Building Program and other local and regional environmental initiatives.

safes und
SOLID CORE DOORS

Masonite's environmentally responsible Flush, Safe 'N Sound (SNS) interior doors are manufactured with DorCor, an essential ingredient in making this product "green." DorCor is a low density fibercor made from wheat straw, an annually renewable, agricultural, wheat by-product. (1-3/8" thickness)

safes und
EMERALD SOLID CORE DOORS

Primed Hardboard Emerald Safe 'N Sound (ESNS) uses the same DorCor ingredient as the Safe 'N Sound with the added attributes of being Forest Stewardship Council (FSC) certified and containing No Added Urea-Formaldehyde. (1-3/8" thickness)

hollow core

Primed Hardboard Emerald Hollow Core (EHCL) door is the perfect "green" solution for budget-minded customers. (1-3/8" thickness)

GREEN BUILDING INITIATIVE

masonite's commitment

A research and development, customer service and manufacturing – understand that people love their homes. In the past, homes were purchased to meet functional needs. Today, homes are purchased to meet specific lifestyles and to satisfy the need to create multiple living environments within a single home. To meet these lifestyle needs, Masonite is continually creating new and innovative products that will make every home more beautiful, more valuable and more enjoyable. With the ultimate goal of adding beauty and value to every home, Masonite's products are designed and constructed to exacting standards and specifications. All materials – wood, fiberglass, steel or composites – are engineered and carefully selected to ensure lasting durability and timeless performance. For individuals who are building, renovating or redecorating, Masonite products are certain to beautify and accentuate a wide array of architectural home styles.
